

RAISERIGHT FUNDRAISING INFORMATION

Helps Reduce Your Fair Share without Selling or Costs!

Please note that this is a four-step process:

1. Use the QR Code to set up the account:

2. You will receive an email from the coordinator with information and a Google Form to complete for the Booster Club Treasurer.
3. Log into the RaiseRight website on a computer to set up your payment information.
4. Download and sign in to the RaiseRight app.

The RAISERIGHT Program

RaiseRight is a way for you to raise money for your child's choir account by using gift cards to pay for everyday purchases like clothes, food & gas. You buy gift cards at various places, and you get back a percentage into your student's account. The percentages vary by retailer. The major advantage to this program is that there is NO selling involved. Your family's everyday purchases help become your earnings.

Enrollment

To participate in RaiseRight you must complete the RaiseRight enrollment form. Once that is complete, email the RaiseRight coordinator (below) and let them know that you have completed the form. **(The form is important, as it is used to credit your child's choir accounts.)** You will then be sent an enrollment code via email to register online. All participants must go to the RaiseRight website and register/create an account. You must enter the enrollment code that will be emailed to you for your account to be linked to the Fishers High School Choir Booster Club. Signing up is easy and very little information is needed (name, password, address).

There are 3 types of gift cards available. Not all retailers offer every option.

eGIFT (Option 1)

This is an electronic gift card called eGIFT that can be ordered and printed right from your RaiseRight account.

You can use these gift cards for online purchases by copying and pasting your code at checkout or print to redeem in stores. Many retailers can scan the gift card from your smartphone.

Reloadable Gift Cards (Option 2)

Reloadable gift cards are physical plastic gift cards that are purchased through RAISERIGHT and have the option to be reloaded so they can be used over and over. Reloadable gift cards must be purchased, registered and reloaded on the RAISERIGHT website to receive the rebate.

Physical Gift Cards (Optional 3)

This is a physical gift card. Plastic Gift cards are ordered and shipped as a group *once per semester* and must be picked up from the RAISERIGHT coordinator. Orders usually arrive within a few days. Order dates are communicated via email from the coordinator and are usually planned prior to events so cards can be easily picked up.

RAISERIGHT advantages:

- Your gift card is ready in minutes
- Your gift card is delivered electronically to your account
- Gift cards can be reprinted
- Many retailers can scan the gift card from your smartphone

Payment Options:

Bank Account or Credit Card

When you create your account you will be able to add a bank account or credit card. Please know there is a 3rd option listed, pay coordinator directly. **We do not use this option.**

To Order by App – RaiseRight

The mobile app works the same as the website. You search for which cards you would like and type. Payment options are the same as the website. From the app you will also be able to get a barcode for the cards purchased and used in store.

Family and Friends can also raise funds as well.

Have your family and friends follow the same process to sign up. When they complete the enrollment form, mentioning your child's name, their earnings will be credited to your child's choir account.

Please reach out to our coordinator if you have any questions.
